Government Recruitment ServiceJob type:PermanentJob reference:267344/2 Apply for this job SummaryWe recognise the challenges that people with (multiple) protected characteristics may experience on the job market and in their career progression. We are fully committed to being an inclusive employer and ensuring equal opportunities. We are keen to make our workforce as diverse as possible, and we hope to attract applications from underrepresented groups, including ethnic minorities, people with a disability, and people with gender diverse identities.

Are you passionate about addressing sustainability challenges and reaching Net Zero? Would you like to help deliver the UK's climate change commitments?

If so, we are looking for highly motivated professionals with a strong knowledge of renewable fuels and/or sustainability to join the Renewable Transport Fuel Obligation (RTFO) Unit as a Principal Sustainability Specialist, and we'd like you to apply!Please note - at time of publication of this advert there are no current vacant positions. We expect vacancies to open up in the next weeks and months. Therefore, this campaign will create an active merit list in order to fulfil demand as soon as it arises.

As the UK's renewable transport fuels regulator, the RTFO Unit is a world-leading centre of expertise on the environmental sustainability of low carbon fuels. We deliver one of Government's primary policies to reduce greenhouse gas emissions through decarbonising UK transport.

In this role, no day will be the same. One morning you could be resolving a complex sustainability query from a fuel supplier while in the afternoon you could be developing options and briefing ministers on how to use the scheme to encourage use of new emerging fuels such as hydrogen. The next day you could be presenting to international renewable fuel regulators.

Sustainability Specialists — Unclassified in Hastings, East Sussex CC (Feb 2023

This is a challenging and exciting area of work. You will join the team at a critical time for transport decarbonisation. We are growing the

RTFO scheme, looking to introduce a specific mandate for Sustainable Aviation Fuels (SAF), and reviewing how we better incentivise the use of novel fuel types like renewable hydrogen.

Responsibilities will include, but are not limited to:

Initiate and manage technical projects. You will investigate emerging sustainability issues, evaluating the risk they pose to the scheme while identifying and implementing solutions.

Ensure the sustainability of the RTFO scheme. You will review RTFO applications to evaluate sustainability claims and provide support to colleagues and fuel suppliers on technical issues.

Collaborate with external stakeholders: You will work with international regulators, industry, and other relevant organisations to address emerging challenges to the sustainability and integrity of the scheme.

Review the role of third-party assurance in the

RTFO:

You will review the role that third-party assurance plays in the RTFO. Lead on data and statistical reporting. You will ensure the data we hold is put to best use to support the running of the scheme. You will be the line manager for the HEO Statistical Officer and support them with the publication of the renewable fuel statistical reports.

For further information, please refer to the role profile attached. Apply for this job ? [Return to the search results](#)

Environmental Spills Technician	
Link to Live Job Posting: Posting is no longer active	
Location: Uckfield, East Sussex CC	Company: Rsk (Uk) Limited
Job Title: Environmental Technicians	

JOB DETAILS

LOCATION Uckfield, Southern

TN22 5QZ

POSTED 4 days ago
Description RSK Response is a business unit within the RSK Group that specialises in the provision of 24/7 environmental incident response services to a variety of clients and sectors across the UK, specialising in electrical and power clients. Due to increased workload, RSK Response is looking for an Environmental Incident Technician to join our growing team in Uckfield, UK.

Primary Activity:

Environmental Incident/Spill response and recovery activities to a variety of sites and site settings across the South East. Successful candidates will preferably have experience in responding to and managing the clean-up of environmental incidents and spills from environmental, power, domestic or industrial sectors, however broader environmental / geo-environmental / waste management background is welcomed. Incident response training is provided and other skills training opportunities may also be available. This is a full time role (40 hours per week) that will require frequent travel, occasional stays away from home and working on an 'On-Call' rota basis.

Responsibilities:

The types of activities that the successful candidate could expect to be involved with include: Development and adherence to specific and point of work health & safety risk assessments
Rapid response to environmental incidents in a variety of urban and rural settings
Pro-active assessment of pollution risks to the environment
Application of a variety of in-situ techniques for containing and recovering oils or other contaminants of concern
Environmental monitoring and sampling activities
Self-confident liaison with client and co-contractors in determining a most appropriate technical response to environmental incidents
Liaison with technical and managerial support regarding all incidents
Effective report writing
Waste management and Duty of Care
Inspection and maintenance of oil storage areas
Decontamination/Deep Cleaning
Work on-call, out of hours, at weekends and holiday periods as required
Person specification: This post would ideally suit practically minded individuals with a mature and pro-active approach to work.

Desirable qualities and skills include:

A strong focus on safety
Punctual, reliable and honest
Excellent communication skills with co-workers, public and clients
Pro-active and hands on approach to site activities

Job Title:

Results should include:

Description
Assistant Directors of Environmental Services
Bioenvironmental Engineering Technicians
Bioenvironmental Engineers
Civil/Environmental Engineers
Commercial Housekeeping/Environmental Services Technicians
Conservation Agents
Conservation and Land Management Interns
Conservation Assistants
Conservation Associates
Conservation Biologists
Conservation Coordinators
Conservation Education Interns
Conservation Educators

Description
Environmental Scientists
Environmental Scientists/Biologists
Environmental Scientists/Geologists
Environmental Scientists/Project Managers
Environmental Scientists/Specialists
Environmental Scientist Supervisors
Environmental Service Aides
Environmental Services Aides
Environmental Services Assistant Managers
Environmental Services Assistants
Environmental Services Associates
Environmental Services Attendants
Environmental Services Coordinators

Conservation Interns
Conservationists
Conservation Managers
Conservation Officers
Conservation Planners
Conservation Program Coordinators
Conservation Program Managers
Conservation Scientists
Conservation Specialists
Conservation Technicians
Conservation Workers
Corporate Environmental Engineers
Corporate Environmental Health and Safety Managers
Corporate Environmental Managers
